

ROZHKOV EUGENE

IOS DEVELOPER

PROFESSIONAL SUMMARY

As an iOS developer with 1.5 years of industry experience, I have a proven track record of successfully presenting and developing business projects with good performance optimizations and tests. Collaborating effectively with cross-functional teams is one of my core strengths, as I have actively participated in and observed various teams. I am constantly seeking opportunities for personal growth, aiming to not only excel as a developer but also to become a valuable team player.

2023.04-present

Multiplatform development · Apple Store Connect ·
UIKit · SwiftUI · Kotlin Multiplatform Mobile · REST API
· Minimum viable product · Tinder State Machine ·
MVI · Client Presentations · Development from
scratch · Kotlin · Java · Swift

Individual Entrepreneur

Contract iOS Developer

2022.05 - 2022.09

Modernization of the Individual Entrepreneur
application. App for managing transport statuses in
Logistics, generating QR codes, enabling search
functionality with DiffableDataSource and
UIViewRepresentable, implementing animations,
and particle effects.

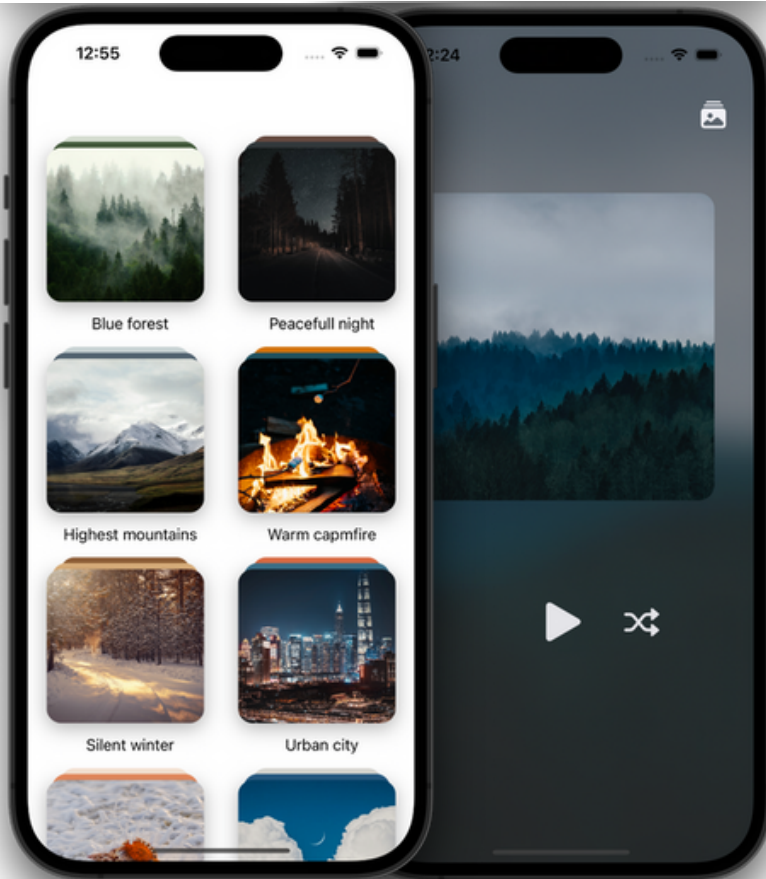

Open-Source Spotify client app

iOS Developer

2023.01 - 2023.02

I successfully developed an error-free backend
system for an independent application that works
separately from the main Spotify app. Helped junior
developers with complex layout and participated
along with the team leader of the project.
